Judy Cohen is an accomplished executive leadership coach and organizational consultant with extensive experience in leadership and performance improvement. Leveraging her background in information technology and corporate executive roles, she helps individuals and teams navigate complex work environments to achieve their goals.

With a focus on unlocking potential, enhancing productivity, and fostering positive workplaces, Judy's coaching approach is both strategic and holistic. She specializes in providing executive coaching and consulting services to clients in government, the private sector, and nonprofit organizations. Her individual coaching supports mid to senior-level leaders in maximizing impact while maintaining authenticity. By employing a systems-based approach, Judy enables clients to identify and clarify their higher goals, strengths, and areas for growth, ultimately enhancing their effectiveness in their work environment.

Judy provides executive leadership coaching and consulting services to Comskil clients. She both supports and challenges her coaching clients to accomplish their professional objectives. Judy also leads team coaching sessions to improve communication, collaboration, and effectiveness. At DoDEA and USDA NOP, she has provided team assessment facilitation to identify strengths and areas for improvement, develop actionable strategies, and enhance overall team dynamics. This process has enabled clients to foster a more cohesive and high-performing team environment, align on shared goals, and implement effective solutions for overcoming challenges, ultimately driving better organizational outcomes and employee engagement. Additionally, as a Mastermind Group facilitator for USDA, Judy guides senior leaders through strategic thinking and decision-making, helping them navigate complex issues and achieve their leadership goals.

Notably, Judy received the Federal 100 award in 2015 for her leadership in a prominent government program and has served as an adjunct lecturer at American University and George Mason University. She has presented at international conferences as well as to organizations such as Salesforce and Nokia. In her personal time, Judy enjoys yoga, family activities, nature walks, pottery, cooking, and spending time with her dog, Mousse.
